

Forensic Accounting Services

How we can support you and your clients

Our team of specially trained and experienced Forensic Accountants can provide expertise on quantification of financial related issues in the settlement of litigation and provide assistance in seeking resolution in a wide range of settings.

We offer a comprehensive range of Forensic Accounting services and work closely with legal advisors, providing tailored solutions which consider the financial, legal and commercial aspects of the case, identifying the relevant issues and offering a comprehensive and concise report.

Our team is headed up by Des Kelly, Managing Partner with over 25 years' experience in this field, and supported by Anna Devlin, both of whom are accredited Expert Witnesses.

We act for both defendants and claimants and can offer the following services:

- Personal injury and fatal accident claims
- Contractual disputes including breach of contract and consequential loss
- Partnership and shareholder dispute resolution
- Matrimonial cases
- Share and business valuations
- Criminal defence and prosecution in fraud, false accounting and theft cases
- Professional negligence
